- ReactJS
- NodeJS
- ExpressJS
- MongoDB
- ChatGpt
- Figma
- Canva
- Microsoft Office

LANGUAGES

- English (Fluent)
- Filipino

PROFILE

Hi, I'm Carlo, a Junior Web Developer passionate about building modern, responsive websites and web applications. I specialize in front-end development using HTML5, CSS, JavaScript, Tailwind CSS, GitHub, and React.js, and I also have hands-on experience with Node.js, Express.js, and MongoDB for back-end development.

I enjoy solving problems through code and continuously improving my skills, particularly in debugging, error handling, API integration, and responsive design using media queries. I also leverage AI tools like ChatGPT to boost productivity, streamline debugging, and accelerate learning—allowing me to work more efficiently and effectively.

I'm eager to grow as a developer, collaborate on real-world projects, and contribute to creating meaningful digital experiences.

WORK EXPERIENCE

Petron Station Sogod Branch
Administrative Manager 2020 - 2025

- Handled payroll, inventory analysis, and market value updates to support efficient station operations.
- Provided leadership and administrative oversight, ensuring smooth workflow and staff performance.

Amaia
Real Estate Sales Specialist 2018 - 2019

- Closed multiple successful property deals across residential and condominium projects.
- Recognized for exceeding monthly sales quotas.
- Collaborated effectively with marketing and operations teams to streamline the sales process.
